

The Fourth International Scientific Conference

Arab Society of Biomechanics in Sport (ArabSBS)

"Biomechanics... Where Science Meets Movement and Athletic Excellence Is Created"

In cooperation with college of physical education and sports sciences
The Hashemite University
May 5 - 7, 2026

Conference Vision

Achieving Arab and international leadership in the development of sports biomechanics sciences and strengthening the linkage between scientific research and practical application.

Conference Mission

Enhancing applied scientific research and employing modern technologies and artificial intelligence to serve sports performance, rehabilitation, and health.

Conference Objectives

- Developing applied scientific research.
- Linking theory with practice.
- Supporting researchers and postgraduate students.
- Exchanging Arab and international expertise.
- Developing rehabilitation and injury-prevention programs.

Last Date for Registration
2026-3-30

Conference Themes

Movement Analysis

Motor Control

Health and injury Rehabilitation

Brain Health

Gender Equality in Sport

Exercise physiology

Biomechanics

Sports Training

Artificial Intelligence

Paralympic Sports

Football Sciences

Sports psychology

Participation

- Submitted research must be original and not previously published.
- Commitment to scientific research methodology.
- Compliance with the conference template and submission guidelines.
- All submissions are subject to scientific peer review.
- Deadline for paper submission: March 30, 2026

Benefits of Participation

- Publication of accepted papers in a peer-reviewed scientific journal indexed in Scopus, or in an Arabic scientific journal according to the researcher's preference.
- Accredited certificates of participation.
- Awards for the best research papers.
- Opportunities for international scientific collaboration
- Continuing Professional Development will be obtained for attendance and researchers (CPD)

Associated Events

- Specialized scientific lectures.
- Applied workshops using the latest devices and technologies.
- Scientific sessions for research presentations.
- Exhibition of technology companies specializing in movement analysis.
- Participation of distinguished Arab and international professors and experts.
